Product Description

The Borg 2000 Series Replacement Tubular Latch is a high-quality spare latch designed specifically for use with the Borg BL2000, BL2400, BL2500, and BL2700 series of mechanical digital locks. This latch is ideal for replacing a worn or damaged latch, or for changing the backset of your existing digital lock installation.

Featuring an integrated anti-thrust pin (deadlatching function), this latch automatically locks when the door is closed, preventing unauthorised retraction of the latch bolt (loiding or shimming) and ensuring reliable security. It is fully reversible, making it suitable for both left and right-handed doors.

This replacement latch is available in three backset sizes: 50mm, 60mm, and 70mm. Please select your required backset size from the options below to ensure compatibility with your door preparation.

Technical Specifications

- **Brand:** Borg Locks
- **Compatibility:** Suitable for Borg BL2000, BL2400, BL2500, and BL2700 series digital locks
- **Available Backsets:** 50mm, 60mm, and 70mm (please select from the options below)
- **Latch Bolt Projection:** 12.5mm
- **Handing:** Fully reversible (non-handed)

- **Deadlatching:** Yes (features an anti-thrust pin to prevent forced entry)

Key Features

- **Genuine Replacement Part:** Designed by Borg Locks specifically for the 2000 series range.
- **Enhanced Security:** Integrated anti-thrust pin prevents shimming or forced retraction of the latch bolt when the door is closed.
- **Versatile Handing:** Reversible design allows for easy installation on both left and right-handed doors.
- **Multiple Backset Options:** Available in 50mm, 60mm, and 70mm sizes to suit different door installations.
- **Durable Construction:** Built to withstand regular daily use in light-duty internal door applications.
