Product type	Borg Accessories

Product Description

The Borg 2000 Series Tumbler Pack is a set of four replacement tumblers designed for the Borg BL2000 range of mechanical digital locks. These spare tumblers are ideal for replacing worn or lost components, or for adjusting the length of your lock's entry code.

These tumblers are available in two distinct types to suit your configuration:

- **Red Tumblers (Coded):** Used for the active buttons that make up your entry code.
- **Blue Tumblers (Non-Coded):** Used for the inactive buttons that are not part of the code.

By adding or removing coded tumblers, you can easily customise your digital lock's combination to increase or decrease the code length. These tumblers are also compatible with BL3100, BL3400, and BL4400 series keypads (please note they are not compatible with ECP models).

Please select your required tumbler colour from the options below.

Technical Specifications

- **Manufacturer:** Borg Locks
- **Series Compatibility:** Borg BL2000, BL3100, BL3400, and BL4400 series keypads (excluding ECP models)
- **Pack Quantity:** 4
- **Tumbler Options:** Red (coded) or Blue (non-coded)

Key Features

- **Genuine Borg Spare Parts:** High-quality replacement tumblers designed specifically for Borg mechanical digital locks.
- **Customise Code Length:** Easily increase or decrease the number of digits in your entry code.
- **Colour-Coded Design:** Simple identification with red for coded buttons and blue for non-coded buttons.
- **Convenient Pack:** Supplied in a pack of 4 to ensure you have enough spares for your configuration needs.
