Product Description

The Borg 4400 Series Inside Handle Unit (S401/Black) is a robust, marine-grade replacement or upgrade handle designed specifically for use with the Borg BL4400 series of mechanical digital locks. Engineered to withstand harsh outdoor environments, this inside handle features a highly durable Marine Grade Pro (MG Pro) black finish, making it an excellent choice for external timber gates, sheds, and doors.

This unit is equipped with a DDA-compatible rounded lever handle, ensuring comfortable and ergonomic operation for all users. It comes as standard with an optional holdback function, allowing you to easily set the lock to a free-passage state when unrestricted access is needed. If the holdback feature is not required, it can be easily disabled during installation.

Designed with versatility in mind, the handle is fully reversible on-site, making it suitable for both left and right-handed doors. Whether you are replacing a worn handle or upgrading your existing setup, this genuine Borg accessory offers reliable performance and long-lasting weather protection.
