Product type	Borg Accessories

Product Description

The Borg 4000 Series Strike Plate & Box Keep is a genuine replacement accessory designed specifically for Borg 4000 series digital locks equipped with a tubular latch (the 4001 series).

This set includes both the strike plate and the matching box keep (dust box), providing a complete solution for securing the latch bolt within the door frame. The box keep fits neatly into the frame cutout behind the strike plate, preventing dust, wood shavings, and other debris from entering the cavity. This helps maintain the smooth, reliable operation of your digital lock's latch mechanism and prevents premature wear.

Ideal for replacing damaged or worn components, this genuine Borg spare part ensures a precise fit and reliable performance.

Technical Specifications

- **Brand:** Borg Accessories
- **Compatibility:** Borg 4000 series digital locks with tubular latches (4001 series)
- **Component Type:** Strike plate and box keep (dust box)
- **Part Number:** S4SPBK

Key Features

- **Genuine Borg Accessory:** Designed specifically for a perfect fit and seamless compatibility with the 4001 series.
- **Complete Set:** Includes both the strike plate and the box keep for a full frame-side installation.
- **Debris Protection:** The integrated box keep prevents dust and wood shavings from entering the frame cavity, ensuring smooth latch operation.
- **Durable Construction:** Built to withstand regular daily use in residential or commercial environments.
