Product type	Borg Accessories

Product Description

The Borg 5000 Series Escape Lockcase is a high-quality, heavy-duty mortice lockcase designed specifically to work in conjunction with the Borg BL5000 series of mechanical digital locks. Featuring standard 72mm centres, this lockcase is engineered to provide reliable security while ensuring safe, unrestricted egress.

With its built-in escape function, the lockcase allows anyone inside the building to exit instantly by simply turning the inside handle, regardless of whether the door is locked or deadlocked from the outside. This makes it an ideal choice for commercial properties, offices, and public buildings where emergency exit compliance and safety are paramount.

Designed for medium to heavy-duty applications, this robust 60x72mm lockcase is compatible with standard euro profile cylinders (sold separately) to allow for deadlocking and key override capabilities. It is suitable for use on a wide variety of door types, including timber, composite, and steel doors.

Technical Specifications

- **Brand:** Borg Locks
- **Compatibility:** Borg BL5000 series digital locks
- **Lockcase Type:** Mortice escape lockcase
- **Centres:** 72mm
- **Backset:** 60mm
