Product Description

The Borg 5000 Series Lockcase is a high-quality replacement or installation lockcase designed specifically for the Borg 5000 series of mechanical digital locks. Built to withstand medium to heavy-duty usage, this robust lockcase ensures reliable operation and seamless integration with your existing Borg digital keypad setup.

Featuring a standard 60mm backset and a 225mm forend, this lockcase provides a precise fit for compatible doors. It is supplied as a complete package, containing everything required for a straightforward installation or replacement. The kit includes an 8mm spindle, a matching strike plate, and all necessary fixing screws, saving you time and ensuring you have the correct components on hand.

Whether you are replacing a worn lockcase or installing a new Borg 5000 series digital lock, this genuine Borg accessory offers the durability and performance expected from a leading access control manufacturer.
