Specification Summary

Brand	Borg digital locks
Product type	Borg digital locks

Product Description

The BL5201MG digital lock is part of Borg's Marine Grade Pro series which have been specially designed for marine applications where ISPS compliance is necessary.

This non-handed medium to heavy duty digital lock is suitable for use on DDA applications and comes with a 60mm latch, 12 large indented buttons and a clutched handle which protects against forced entry and lock damage. Cycle tested to 100,000 operations and salt spray tested for over 1000 hours, the BL5201MG is a digital lock for the toughest environments.

Features

- **Over 2000 code combinations available**
- **12 large indented buttons**
- Weatherproof design
- 8mm square spindle
- Optional free passage function
- ISPS Compliant

Brand Profile

Borg digital locks

Borg (trading as **Borg Locks**) is a UK access-control brand best known for **mechanical, keyless push-button door and gate locks**: the classic “no batteries, no wiring, just a code” approach that’s popular for shared doors, staff entrances, plant rooms, gates, and anywhere keys inevitably get lost, copied, or ceremonially dropped down a drain.

Borg has been **designing, creating, and distributing mechanical access-control devices since 1997**, with a product line built around different duty levels and environments - from light internal use to heavy-duty commercial traffic.

The range is deliberately broad and application-led: Borg markets keypad locks for **timber doors, steel doors, aluminium doors, gates**, plus specialist lines like **fire-tested keypads** and **marine-grade/weather-resistant** options for exposed installations.

A big “Borg-ism” you’ll see repeatedly is **easy code management -** for example their **Easicode Pro (ECP)** range is designed for **on-the-door code changes** without removing the lock (useful for rentals, staff turnover, site access, etc.).
