Specification Summary

Brand	Unspecified
Product type	Borg digital locks

Product Description

The new and improved BL6100 ECP, for use with UPVC and composite doors and most standard multipoints. Like all of our ECP units, this is now supplied with the ability to change the code on the door.

Key Features:
- Secure Combination Door Lock – Built for dependable performance in medium- to heavy-duty use.

- Easicode Pro System – Change codes directly on the door in seconds for simple, secure recoding.
- Free-rotating lever handle – Engages only when the correct code is entered, enhancing operational durability.
- Durable Build – High-quality construction ensures long-lasting reliability, even in busy environments.
- Specialist setup – Designed to work with most standard multipoint cassettes, allowing operation in both handle directions.
