Product Description

Enhance the fire safety of your premises with the Borg Locks Intumescent Fire Kits. Designed to fit seamlessly with a range of Borg digital locks, these kits provide an essential thermal barrier. In the event of a fire, the heat-sensitive intumescent material expands to seal gaps around the lock, maintaining the structural integrity of your fire door and helping to prevent the spread of smoke and heat.

These kits are suitable for both new installations and retrofitting to existing doors. To ensure a perfect fit, they are available in multiple options tailored to different lock configurations, including latch and lockcase versions. Please select the correct model for your specific Borg lock series from the options below.

Technical Specifications

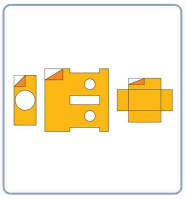

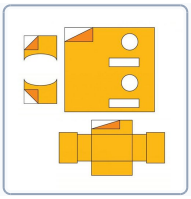

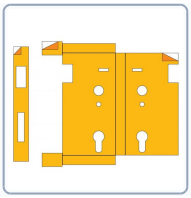

- **Fire Rating:** Suitable for FD30 and FD60 fire doors (30 and 60-minute protection)
- **Tested Standards:** Fire tested to BS EN 1634-1 and BS EN 1363-1
- **Compatibility Options:**
  - **S205A:** To suit BL2500 / BL2700 Series Latch (60mm tubular latch)
  - **S504AB:** To suit BL5000 / BL7000 Series Latch Version (60mm tubular latch)

- **S509AB:** To suit BL5000 / BL7000 Series Lockcase Version (DIN standard sashlock)

Key Features

- **Essential Fire Protection:** Expands under heat to maintain the fire rating of your door assembly.
- **Tailored Fit:** Specifically designed to wrap around the latch, forend, or lockcase of compatible Borg digital locks.
- **Easy Installation:** Simple to fit, making it ideal for both new installations and retrofitting.
- **Multiple Options Available:** Please select your required manufacturer reference from the options below to ensure compatibility with your lock.
