Specification Summary

Brand	Briton
Product type	Accessory

Product Description

The Briton 376 Series Bottom Shootbolt (manufacturer reference 373/093/SE) is a high-quality replacement bottom shoot designed to suit Briton 376 Series panic hardware and emergency exit systems. Manufactured from solid metal, this durable shootbolt ensures reliable vertical bolting to maintain the security and functionality of your escape doors.

Featuring a hard-wearing silver enamelled finish, this bottom shootbolt is built to withstand the demands of high-traffic environments such as schools, commercial offices, and public buildings. It measures 97cm in length with a 15mm diameter and can be easily cut down on-site to achieve a precise fit for your specific door setup. This makes it an ideal spare part for maintaining compliance and ensuring the smooth operation of your emergency exit hardware.

Technical Specifications

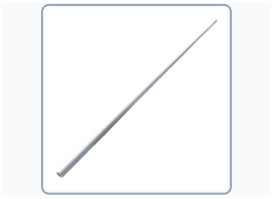

- **Brand:** Briton
- **Manufacturer Reference:** 373/093/SE
- **Part Number:** L31125
- **Barcode:** 5027968524503

- **Finish:** Silver Enamelled

Brand Profile

Briton

Briton is a long-established UK door hardware brand best known for **door controls** and **exit hardware** used in commercial buildings where reliability and fire-safety compliance actually matter. Briton markets itself as having **over 100 years** of history in the sector, with a reputation built on “highly engineered” products designed to survive constant, unglamorous punishment in busy environments.

Today, **Briton is part of Allegion** (the global security group behind multiple access and door hardware brands). In the Allegion portfolio, Briton sits as a specialist name for door control and emergency exit solutions.

What Briton is typically associated with in the trade/spec world:

- **Overhead door closers** (including their long-running “classic” closer heritage)
- **Panic and emergency exit devices** such as push bars and push pads, designed and tested to standards like **EN 1125** (panic) and **EN 179** (emergency exit) depending on application
- A broader ecosystem that now extends into related **locks, cylinders, door furniture and accessories** under the Briton hallmark

Fun bit of heritage trivia that specs people love: sources discussing Briton’s classic door closer lineage note early Briton closers being manufactured by **William Newman & Sons Ltd in Birmingham** in the **1930s**, and that the traditional style still shows up in places like historic properties.
