Brand	Briton
Product type	Accessory

Product Description

The Briton 376 Series Flush Face Keeper Plate is a high-performance accessory designed specifically for use with Briton 376 Series panic hardware. It is the ideal solution for installations where the door and frame sit flush, providing a secure and reliable latching point for the top vertical bolt.

Crafted from solid metal with a durable zinc-plated finish, this keeper plate is built to withstand the demands of busy commercial environments. It features countersunk screw holes to ensure a completely flush, clean finish that does not interfere with the door's operation or aesthetic. Whether you are installing new emergency exit hardware or replacing an existing component, this genuine Briton accessory ensures your panic exit systems function smoothly and securely.

Technical Specifications

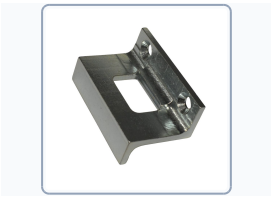

- **Brand:** Briton
- **Manufacturer Reference:** 376FFKP/ZP
- **Barcode:** 5027968501269
- **Finish:** Zinc Plated
- **Material:** Solid metal

- **Compatibility:** Briton 376 Series panic hardware

Brand Profile

Briton

Briton is a long-established UK door hardware brand best known for **door controls** and **exit hardware** used in commercial buildings where reliability and fire-safety compliance actually matter. Briton markets itself as having **over 100 years** of history in the sector, with a reputation built on “highly engineered” products designed to survive constant, unglamorous punishment in busy environments.

Today, **Briton is part of Allegion** (the global security group behind multiple access and door hardware brands). In the Allegion portfolio, Briton sits as a specialist name for door control and emergency exit solutions.

What Briton is typically associated with in the trade/spec world:

- **Overhead door closers** (including their long-running “classic” closer heritage)
- **Panic and emergency exit devices** such as push bars and push pads, designed and tested to standards like **EN 1125** (panic) and **EN 179** (emergency exit) depending on application
- A broader ecosystem that now extends into related **locks, cylinders, door furniture and accessories** under the Briton hallmark

Fun bit of heritage trivia that specs people love: sources discussing Briton’s classic door closer lineage note early Briton closers being manufactured by **William Newman & Sons Ltd in Birmingham** in the **1930s**, and that the traditional style still shows up in places like historic properties.
