Brand	Briton
Product type	Accessory

Product Description

The Briton 376 Series Shoot Guide is a high-quality replacement component designed to restore or maintain the smooth operation of your emergency exit hardware. Specifically engineered to suit the Briton 376 Series panic hardware, including the Briton 376 push bar vertical panic bolt and the Briton 372 push pad vertical bolt, this shoot guide ensures the vertical shoot bolts remain securely aligned and guided during operation.

Constructed from solid metal, this durable shoot guide is built to withstand the demands of busy commercial environments, ensuring long-lasting reliability and safety. It features a grey enamelled finish to seamlessly match your existing Briton hardware setup. Whether you are performing routine maintenance or replacing a worn component, this genuine Briton spare part ensures your fire and emergency exit doors continue to operate safely

and effectively.

Technical Specifications

- **Brand:** Briton
- **Manufacturer Reference:** 376/005/SE
- **Compatibility:** Briton 376 Series panic hardware (including Briton 376 and 372 vertical bolts)
- **Finish:** Grey
- **Material:** Solid metal
- **Weight:** 200g
- **Pack Quantity:** 1

Key Features

- **Genuine Spare Part:** Designed specifically to maintain or restore the functionality of Briton 376 Series emergency exit hardware.
- **Robust Construction:** Solid metal build ensures durability and long-term reliability in high-traffic applications.
- **Smooth Operation:** Keeps vertical shoot bolts correctly aligned for reliable door latching and release.
- **Matching Finish:** Grey finish matches standard silver/grey Briton panic hardware.

Brand Profile

Briton

Briton is a long-established UK door hardware brand best known for **door controls** and **exit hardware** used in commercial buildings where reliability and fire-safety compliance actually matter. Briton markets itself as having **over 100 years** of history in the sector, with a reputation built on “highly engineered” products designed to survive constant, unglamorous punishment in busy environments.

Today, **Briton is part of Allegion** (the global security group behind multiple access and door hardware brands). In the Allegion portfolio, Briton sits as a specialist name for door control and emergency exit solutions.

What Briton is typically associated with in the trade/spec world:

- **Overhead door closers** (including their long-running “classic” closer heritage)
- **Panic and emergency exit devices** such as push bars and push pads, designed and tested to standards like **EN 1125** (panic) and **EN 179** (emergency exit) depending on application
- A broader ecosystem that now extends into related **locks, cylinders, door furniture and accessories** under the Briton hallmark

Fun bit of heritage trivia that specs people love: sources discussing Briton’s classic door closer lineage note early Briton closers being manufactured by **William Newman & Sons Ltd in Birmingham** in the **1930s**, and that the traditional style still shows up in places like historic properties.
