Specification Summary

Brand	Briton
Product type	Mortice Latch

Product Description

The Briton 5440 is a high-quality DIN-standard mortice latch designed for use on commercial and residential doors with lever furniture where locking is not required. It features a robust, silver-finished lockcase and a high-grade 304 stainless steel forend with a satin finish, ensuring both durability and a clean, modern aesthetic.

Designed with versatility in mind, the latch bolt is quickly reversible, allowing for easy on-site handing on both left and right-handed doors without the need to dismantle the lockcase. The single-piece square forend simplifies door preparation, making installation straightforward. Additionally, the Briton 5440 is certified to BS EN 12209:2003 standards and is suitable for use on fire doors when paired with an appropriate door closer.

Technical Specifications

Brand Profile

Briton

Briton is a long-established UK door hardware brand best known for **door controls** and **exit hardware** used in commercial buildings where reliability and fire-safety compliance actually matter. Briton markets itself as having **over 100 years** of history in the sector, with a reputation built on “highly engineered” products designed to survive constant, unglamorous punishment in busy environments.

Today, **Briton is part of Allegion** (the global security group behind multiple access and door hardware brands). In the Allegion portfolio, Briton sits as a specialist name for door control and emergency exit solutions.

What Briton is typically associated with in the trade/spec world:

- **Overhead door closers** (including their long-running “classic” closer heritage)
- **Panic and emergency exit devices** such as push bars and push pads, designed and tested to standards like **EN 1125** (panic) and **EN 179** (emergency exit) depending on application
- A broader ecosystem that now extends into related **locks, cylinders, door furniture and accessories** under the Briton hallmark

Fun bit of heritage trivia that specs people love: sources discussing Briton’s classic door closer lineage note early Briton closers being manufactured by **William Newman & Sons Ltd in Birmingham** in the **1930s**, and that the traditional style still shows up in places like historic properties.
