Brand	Briton
Product type	Accessory

Product Description

The Briton 560 & 570 Series Easy Clean Strike Pack (Manufacturer Reference: 574.STE.BM) is a high-quality floor socket accessory designed for use with the lower pullman latches on Briton 560 and 570 Series panic exit hardware. This easy-clean socket prevents the accumulation of dust, dirt, and debris in the floor strike, ensuring the bottom latch operates smoothly and reliably over time. Finished in a durable powder-coated black, it seamlessly matches your existing exit hardware setup.

Technical Specifications

- **Brand:** Briton
- **Manufacturer Reference:** 574.STE.BM
- **Finish:** Black
- **Compatibility:** Briton 560 & 570 Series panic hardware (lower pullman latches)
- **Weight:** 104g

Brand Profile

Briton

Briton is a long-established UK door hardware brand best known for **door controls** and **exit hardware** used in commercial buildings where reliability and fire-safety compliance actually matter. Briton markets itself as having **over 100 years** of history in the sector, with a reputation built on “highly engineered” products designed to survive constant, unglamorous punishment in busy environments.

Today, **Briton is part of Allegion** (the global security group behind multiple access and door hardware brands). In the Allegion portfolio, Briton sits as a specialist name for door control and emergency exit solutions.

What Briton is typically associated with in the trade/spec world:

- **Overhead door closers** (including their long-running “classic” closer heritage)
- **Panic and emergency exit devices** such as push bars and push pads, designed and tested to standards like **EN 1125** (panic) and **EN 179** (emergency exit) depending on application
- A broader ecosystem that now extends into related **locks, cylinders, door furniture and accessories** under the Briton hallmark

Fun bit of heritage trivia that specs people love: sources discussing Briton’s classic door closer lineage note early Briton closers being manufactured by **William Newman & Sons Ltd in Birmingham** in the **1930s**, and that the traditional style still shows up in places like historic properties.
