Specification Summary

Brand	Briton
Product type	Accessory

Product Description

The Briton 560 & 570 Series Top Rod Extension Kit is a high-quality accessory designed for use with Briton 560 and 570 Series panic hardware. This extension kit is suitable for doors up to 3500mm high, making it an ideal solution for oversized doors or installations where the panic bar needs to be mounted in a lower position, such as in schools and other educational facilities.

Constructed from solid metal for maximum durability and long-lasting performance, this extension kit ensures the continued reliability of your emergency exit systems. It is available in multiple finishes, including Black and Silver Enamelled, to seamlessly match your existing exit hardware. Please select your preferred finish, manufacturer

reference, and barcode from the options below.

Technical Specifications

- **Brand:** Briton
- **Compatibility:** Briton 560 & 570 Series panic hardware
- **Maximum Door Height:** 3500mm
- **Material:** Solid metal
- **Weight:** 150g
- **Pack Quantity:** 1

Brand Profile

Briton

Briton is a long-established UK door hardware brand best known for **door controls** and **exit hardware** used in commercial buildings where reliability and fire-safety compliance actually matter. Briton markets itself as having **over 100 years** of history in the sector, with a reputation built on “highly engineered” products designed to survive constant, unglamorous punishment in busy environments.

Today, **Briton is part of Allegion** (the global security group behind multiple access and door hardware brands). In the Allegion portfolio, Briton sits as a specialist name for door control and emergency exit solutions.

What Briton is typically associated with in the trade/spec world:

- **Overhead door closers** (including their long-running “classic” closer heritage)
- **Panic and emergency exit devices** such as push bars and push pads, designed and tested to standards like **EN 1125** (panic) and **EN 179** (emergency exit) depending on application
- A broader ecosystem that now extends into related **locks, cylinders, door furniture and accessories** under the Briton hallmark

Fun bit of heritage trivia that specs people love: sources discussing Briton’s classic door closer lineage note early Briton closers being manufactured by **William Newman & Sons Ltd in Birmingham** in the **1930s**, and that the traditional style still shows up in places like historic properties.
