Specification Summary

Brand	Briton
Product type	Accessory

Product Description

The Briton 2400 series Arm Pack is a high-quality replacement arm pack designed specifically for use with Briton 2400 series concealed cam action door closers. This genuine Briton accessory is ideal for commercial maintenance and repair, allowing you to replace a damaged or worn arm without the expense of purchasing a complete new door closer unit.

Available in multiple finishes, including Silver and Satin Stainless Steel, this arm pack ensures your door closer maintains its aesthetic appeal while delivering reliable performance. Please select your preferred finish,

manufacturer reference, and barcode from the options below to perfectly match your existing door hardware.

Brand Profile

Briton

Briton is a long-established UK door hardware brand best known for **door controls** and **exit hardware** used in commercial buildings where reliability and fire-safety compliance actually matter. Briton markets itself as having **over 100 years** of history in the sector, with a reputation built on “highly engineered” products designed to survive constant, unglamorous punishment in busy environments.

Today, **Briton is part of Allegion** (the global security group behind multiple access and door hardware brands). In the Allegion portfolio, Briton sits as a specialist name for door control and emergency exit solutions.

What Briton is typically associated with in the trade/spec world:

- **Overhead door closers** (including their long-running “classic” closer heritage)
- **Panic and emergency exit devices** such as push bars and push pads, designed and tested to standards like **EN 1125** (panic) and **EN 179** (emergency exit) depending on application
- A broader ecosystem that now extends into related **locks, cylinders, door furniture and accessories** under the Briton hallmark

Fun bit of heritage trivia that specs people love: sources discussing Briton’s classic door closer lineage note early Briton closers being manufactured by **William Newman & Sons Ltd in Birmingham** in the **1930s**, and that the traditional style still shows up in places like historic properties.
