Brand	Briton
Product type	Escutcheon & Rose

Product Description

The Briton 4210.SS Bathroom Turn and Indicator Escutcheon Set is a premium door furniture accessory designed specifically for bathroom and privacy door applications. Crafted from high-quality Grade 304 satin stainless steel, this set is engineered to complement the Briton 4200 Series lever sets, ensuring a seamless and modern aesthetic across your doors.

Supplied as a complete pair, the set includes an inside thumbturn and an outside emergency release indicator, complete with an 8mm spindle. It is suitable for door thicknesses between 38mm and 54mm. To maintain a clean and professional appearance, the escutcheons feature matching push-on covers that fully conceal the bolt-through fixings. Built to withstand demanding environments, this set is fire-tested to EN 1634, making it suitable for timber

fire doors (up to 2 hours) and steel fire doors (up to 4 hours).

Brand Profile

Briton

Briton is a long-established UK door hardware brand best known for **door controls** and **exit hardware** used in commercial buildings where reliability and fire-safety compliance actually matter. Briton markets itself as having **over 100 years** of history in the sector, with a reputation built on “highly engineered” products designed to survive constant, unglamorous punishment in busy environments.

Today, **Briton is part of Allegion** (the global security group behind multiple access and door hardware brands). In the Allegion portfolio, Briton sits as a specialist name for door control and emergency exit solutions.

What Briton is typically associated with in the trade/spec world:

- **Overhead door closers** (including their long-running “classic” closer heritage)
- **Panic and emergency exit devices** such as push bars and push pads, designed and tested to standards like **EN 1125** (panic) and **EN 179** (emergency exit) depending on application
- A broader ecosystem that now extends into related **locks, cylinders, door furniture and accessories** under the Briton hallmark

Fun bit of heritage trivia that specs people love: sources discussing Briton’s classic door closer lineage note early Briton closers being manufactured by **William Newman & Sons Ltd in Birmingham** in the **1930s**, and that the traditional style still shows up in places like historic properties.
