Specification Summary

Brand	Briton
Product type	Lever Furniture

Product Description

The Briton 4200 Series RTD (Return to Door) Lever on Rose features a classic round bar lever design prefixed to an 8mm thick sprung rose. Constructed from high-quality grade 304 stainless steel, this durable lever handle set is designed to withstand heavy use in both commercial and residential environments.

This lever handle is fire tested to EN 1634, offering up to 2 hours of fire resistance on timber doors and up to 4 hours on steel doors, making it an excellent choice for fire-rated doors. It is supplied as a pair complete with an 8mm spindle and M4 bolt-through fixings, suitable for doors with a thickness between 38mm and 54mm. With its modern Satin Stainless Steel finish and ergonomic return-to-door design, it provides both safety and style.

Technical Specifications

Brand Profile

Briton

Briton is a long-established UK door hardware brand best known for **door controls** and **exit hardware** used in commercial buildings where reliability and fire-safety compliance actually matter. Briton markets itself as having **over 100 years** of history in the sector, with a reputation built on “highly engineered” products designed to survive constant, unglamorous punishment in busy environments.

Today, **Briton is part of Allegion** (the global security group behind multiple access and door hardware brands). In the Allegion portfolio, Briton sits as a specialist name for door control and emergency exit solutions.

What Briton is typically associated with in the trade/spec world:

- **Overhead door closers** (including their long-running “classic” closer heritage)
- **Panic and emergency exit devices** such as push bars and push pads, designed and tested to standards like **EN 1125** (panic) and **EN 179** (emergency exit) depending on application
- A broader ecosystem that now extends into related **locks, cylinders, door furniture and accessories** under the Briton hallmark

Fun bit of heritage trivia that specs people love: sources discussing Briton’s classic door closer lineage note early Briton closers being manufactured by **William Newman & Sons Ltd in Birmingham** in the **1930s**, and that the traditional style still shows up in places like historic properties.
