Specification Summary

Brand	CAVEO
Product type	Rim Cylinders

Product Description

The CAVEO Dimple Rim Cylinder Keyed Alike Pair is a high-security locking solution designed to replace standard rim latch cylinders without requiring modifications to your door. Supplied as a convenient keyed alike pair, both cylinders operate using the same set of keys, making them ideal for properties with multiple entry points.

This rim cylinder features a high-security 9-pin dimple mechanism that provides robust resistance against common picking and bumping techniques. It is supplied with three reversible dimple keys, which include optional black identification inserts for easy key management.

These cylinders are available in multiple finishes, including Polished Brass and Nickel Plated, to complement your existing door hardware. Please choose your preferred finish, manufacturer reference, and barcode from the options below.

Technical Specifications

- **Brand:** CAVEO
- **Cylinder Type:** Rim Cylinder
- **Mechanism:** 9-Pin Dimple
- **Keying:** Keyed Alike Pair
- **Keys Supplied:** 3 (with optional black identification inserts)
- **Standards:** BS EN 1303:2015
- **Fire Tested:** Grade B
- **Finishes Available:** Polished Brass, Nickel Plated (please choose from the options below)
- **Manufacturer References:** CV50048KAP, CV50336KAP (please choose from the options below)
- **Barcodes:** 5056240130064, 5056240132846 (please choose from the options below)

Key Features

- **Keyed Alike Convenience:** Supplied as a matching pair operating on the same key, perfect for multi-door security.
- **9-Pin Dimple System:** High-security dimple mechanism offers enhanced protection against bumping and picking.

Brand Profile

CAVEO

CAVEO is a high-security **cylinder** brand focused on modern attack resistance in the UK door market, sold as the **CAVEO Secure** range of **euro cylinders** (including thumbturn and keyed-alike options) plus **rim cylinders** . It's positioned as a "upgrade cylinder" choice for uPVC/composite/aluminium doors where snapping, bumping, drilling and picking are the everyday threat model.

At the core of the range is a **dimple-key mechanism** with **verification on two independent levels** and a **reversible keyway** (key goes in either way). The brand also pushes a **uniquely shaped keyway** and **anti-bump** + **anti-drill pins** as part of its anti-attack design story.

CAVEO is marketed around hitting the top UK "trust badges" for cylinders. Trade listings and CAVEO/stockist pages commonly state certification/accreditation including:

- **BSI Kitemarked TS007 3-Star**
- **Sold Secure Diamond**
- **Secured by Design (Police Preferred Specification)**
- **BS EN 1303:2015** cylinder certification

A distinctive part of CAVEO's positioning is its **£2,000 break-in guarantee**: if a burglary occurs within **5 years** and entry was achieved by **snapping the CAVEO cylinder**, they state they'll pay £2,000 on proven claims.

Distribution-wise, CAVEO is strongly associated with the UK trade channel via **Aldridge Security** (you'll see it presented through Aldridge/Aldridge Access as a stocked brand), and it's also been promoted through Secured by Design comms in that context.
