Specification Summary

Brand	CAVEO
Product type	Rim Cylinders
Keyway	Caveo

Product Description

The CAVEO Dimple Rim Cylinder is a high-security replacement cylinder designed to upgrade standard rim latch locks (such as Yale) without requiring any modifications to your door. It operates using a sophisticated 9-pin dimple mechanism, offering enhanced security and reliable performance.

This rim cylinder is supplied keyed to differ and comes complete with three keys, featuring optional black identification inserts to help you easily distinguish your keys. The reversible key design ensures smooth and convenient operation from either side.

The cylinder is available in Polished Brass or Nickel Plated finishes to complement your existing door hardware. Please select your preferred finish and manufacturer reference from the options below.

Technical Specifications

- **Cylinder Type:** Rim Cylinder
- **Cylinder System:** CAVEO
- **Mechanism:** 9-Pin Dimple
- **Keying:** Keyed to Differ (KD)
- **Keys Supplied:** 3 (with optional black identification inserts)
- **Standards:** BS EN 1303:2015
- **Fire Tested:** Grade B
- **Finishes Available:** Polished Brass, Nickel Plated
- **Weight:** 260g

Key Features

- **High-Security Dimple System:** Features a robust 9-pin dimple mechanism for reliable key security.
- **Reversible Key:** Designed with a reversible keyway for easy and convenient key insertion.
- **Direct Replacement:** Easily replaces standard rim latch cylinders with no door modifications required.
- **Multiple Finishes:** Available in Polished Brass or Nickel Plated - please choose your preferred option below.
- **Key Identification:** Supplied with three keys and optional black inserts for easy identification.

Brand Profile

CAVEO

CAVEO is a high-security **cylinder** brand focused on modern attack resistance in the UK door market, sold as the **CAVEO Secure** range of **euro cylinders** (including thumbturn and keyed-alike options) plus **rim cylinders** . It's positioned as a "upgrade cylinder" choice for uPVC/composite/aluminium doors where snapping, bumping, drilling and picking are the everyday threat model.

At the core of the range is a **dimple-key mechanism** with **verification on two independent levels** and a **reversible keyway** (key goes in either way). The brand also pushes a **uniquely shaped keyway** and **anti-bump** + **anti-drill pins** as part of its anti-attack design story.

CAVEO is marketed around hitting the top UK "trust badges" for cylinders. Trade listings and CAVEO/stockist pages commonly state certification/accreditation including:

- **BSI Kitemarked TS007 3-Star**
- **Sold Secure Diamond**
- **Secured by Design (Police Preferred Specification)**
- **BS EN 1303:2015** cylinder certification

A distinctive part of CAVEO's positioning is its **£2,000 break-in guarantee**: if a burglary occurs within **5 years** and entry was achieved by **snapping the CAVEO cylinder**, they state they'll pay £2,000 on proven claims.

Distribution-wise, CAVEO is strongly associated with the UK trade channel via **Aldridge Security** (you'll see it presented through Aldridge/Aldridge Access as a stocked brand), and it's also been promoted through Secured by Design comms in that context.
