Specification Summary

Brand	Cisa
Product type	Long Shackle

Product Description

The CISA 22011 KD Long Shackle Brass Padlock is a robust and versatile security solution designed for applications requiring extended reach and individual key control. Featuring a solid brass body for excellent corrosion resistance and a long hardened steel shackle, this padlock provides the necessary clearance to secure larger fixtures, gates, chains, and lockers.

As a Keyed To Differ (KD) model, each padlock operates with its own unique key, making it ideal for personal or restricted-use setups in residential, commercial, or industrial environments. The padlock features a smooth 5-pin mechanism and a double steel ball locking system for enhanced security.

This padlock is available in multiple sizes with varying shackle clearances and body dimensions. Please choose from the options below to find the perfect fit for your security requirements.

Technical Specifications

- **Brand:** Cisa
- **Cylinder System:** Cisa 22000 Series
- **Mechanism:** 5 Pin
- **Keying:** Keyed To Differ (KD)
- **Keys Supplied:** 2
- **Body Finish:** Polished Brass
- **Body Width:** 40mm to 50mm (please choose from the options below)
- **Body Height:** 35mm to 40mm (please choose from the options below)
- **Body Depth:** 16.5mm to 17mm (please choose from the options below)
- **Shackle Diameter:** 6mm to 8mm (please choose from the options below)
- **Vertical Clearance:** 63mm to 80mm (please choose from the options below)
- **Horizontal Clearance:** 24mm to 29.5mm (please choose from the options below)
- **Weight:** 190g to 370g (please choose from the options below)
- **Manufacturer Reference:** 22011-40 or 22011-50 (please choose from the options below)
- **Pack Quantity:** 1

Key Features

- **Extended Reach:** Long hardened steel shackle provides extra clearance for bulkier fixings, gates, and chains.
- **Corrosion Resistant:** Durable solid brass body ensures longevity and resistance to weathering, making it suitable for both indoor and outdoor use.
- **Secure Locking:** Double steel ball locking mechanism provides strong resistance against pulling and forcing.
- **Individual Key Control:** Keyed To Differ (KD) configuration ensures each padlock operates with its own unique key.
- **In-House Keying Options:** Supported by in-house key cutting, with Keyed Alike (KA) and Master Keyed (MK) options available.

Brand Profile

Cisa

CISA (Costruzioni Italiane Serrature e Affini) is an iconic **Italian lock and access-control brand**, founded in **1926** by **Luigi Bucci**. It built its reputation early by **patenting the first electrically controlled lock** the same year it was founded—basically kicking the door open (politely, with a latch) on modern electromechanical access control.

Today CISA positions itself as "**CISA Italy**," with **design and engineering made in Italy**, and a product ecosystem that spans both **mechanical and electronic security** for **residential, public, and commercial buildings**.

Ownership / group: CISA is a **strategic brand of Allegion** and has been part of the Allegion group **since 2013** (around the time Allegion became a standalone listed company).

What they're known for (in the real world, on real doors):

- **Mechanical locks and cylinders**, including solutions for master keying systems (CISA talks a lot about cylinders/keys and master-key systems production).
- **Electric / electromechanical locks** (heritage category for them), including locks designed to pair with **panic hardware** or remote electric opening in access-control setups.
- **Exit / panic devices** (their ranges are explicitly positioned around installability and reliability, and they're tracking new EU regulatory changes in their comms).
