Specification Summary

Brand	Cisa
Product type	Open Shackle

Product Description

The CISA 22110 Open Shackle Brass Padlock is a highly dependable and compact security solution designed for everyday applications. Featuring a solid brass body and a hardened steel open shackle, this padlock offers excellent durability and corrosion resistance, making it ideal for both indoor and light outdoor use. It is a popular, trusted choice for securing lockers, toolboxes, cabinets, gates, and storage units in both residential and commercial settings.

Equipped with a double steel ball locking mechanism, the padlock provides reliable resistance against pulling and forcing attacks while maintaining a smooth, consistent locking action. This specific model is supplied Keyed Alike (on suite SC0025), allowing multiple padlocks to be operated by the same key - perfect for simplifying key

management across multiple locations or security points.

Technical Specifications

- **Body Width:** 50mm
- **Body Material:** Solid brass
- **Shackle Material:** Hardened steel
- **Shackle Type:** Open shackle
- **Keying:** Keyed Alike (Suite SC0025)
- **Keys Supplied:** 2 keys
- **Locking Mechanism:** Double steel ball locking
- **Weight:** 270g
- **Packaging:** Boxed

Key Features

- **Corrosion Resistant:** Solid brass body provides excellent protection against the elements, suitable for indoor and light outdoor use.
- **Enhanced Security:** Hardened steel shackle and double steel ball locking mechanism offer strong resistance to cutting and pulling.
- **Keyed Alike Convenience:** Supplied keyed alike on a standard stock suite (SC0025) for convenient multi-lock access with a single key.
- **Smooth Operation:** High-quality internal mechanism ensures reliable, smooth locking and unlocking every time.
- **Versatile Application:** Ideal for securing toolboxes, lockers, gates, cabinets, and storage units.

Brand Profile

Cisa

CISA (Costruzioni Italiane Serrature e Affini) is an iconic **Italian lock and access-control brand**, founded in **1926** by **Luigi Bucci**. It built its reputation early by **patenting the first electrically controlled lock** the same year it was founded—basically kicking the door open (politely, with a latch) on modern electromechanical access control.

Today CISA positions itself as "**CISA Italy**," with **design and engineering made in Italy**, and a product ecosystem that spans both **mechanical and electronic security** for **residential, public, and commercial buildings**.

Ownership / group: CISA is a **strategic brand of Allegion** and has been part of the Allegion group **since 2013** (around the time Allegion became a standalone listed company).

What they're known for (in the real world, on real doors):

- **Mechanical locks and cylinders**, including solutions for master keying systems (CISA talks a lot about cylinders/keys and master-key systems production).
- **Electric / electromechanical locks** (heritage category for them), including locks designed to pair with **panic hardware** or remote electric opening in access-control setups.
- **Exit / panic devices** (their ranges are explicitly positioned around installability and reliability, and they're tracking new EU regulatory changes in their comms).
