Specification Summary

Brand	Cisa
Product type	Body Only

Product Description

The CISA 26810 55mm Padlock Body is a robust, solid brass padlock designed to accept a standard half Euro profile cylinder (30/10mm, not included). This versatile design allows you to easily integrate the padlock into existing master key suites or keyed-alike systems, enabling you to use a single key for your padlock as well as other doors, gates, or commercial entry points.

Crafted with a strong satin brass monoblock body and a special steel shackle, this padlock body provides reliable physical resistance. The half cylinder is easily installed into the bottom of the padlock body, offering a highly customisable and secure locking solution.

Please note: This product is supplied as the padlock body only. A compatible 40mm (30/10) Euro profile half cylinder must be purchased separately to operate the lock.

Technical Specifications

- **Brand:** CISA
- **Manufacturer Reference:** 26810
- **Body Width:** 55mm
- **Body Thickness:** 27.5mm
- **Shackle Diameter:** 9.5mm
- **Shackle Clearance (Horizontal):** 27.0mm
- **Shackle Clearance (Vertical):** 39.0mm
- **Finish:** Satin Brass
- **Body Material:** Brass monoblock
- **Shackle Material:** Special steel
- **Cylinder Compatibility:** 40mm (30/10) Euro profile half cylinder (not included)
- **Weight:** 300g
- **Pack Quantity:** 1

Key Features

- **Euro Cylinder Integration:** Compatible with a 30/10mm Euro profile half cylinder, making it ideal for integration into existing master key or keyed-alike systems.
- **Solid Brass Monoblock Body:** Robust brass construction provides durable protection and resistance against weathering.
- **Special Steel Shackle:** Offers enhanced physical resistance against cutting and sawing attacks.
- **Customisable Security:** Allows you to choose and install your own cylinder to match your specific security and keying requirements.
- **Body Only Supply:** Perfect for locksmiths and security professionals looking to configure their own padlock setup.

Brand Profile

Cisa

CISA (Costruzioni Italiane Serrature e Affini) is an iconic **Italian lock and access-control brand**, founded in **1926** by **Luigi Bucci**. It built its reputation early by **patenting the first electrically controlled lock** the same year it was founded—basically kicking the door open (politely, with a latch) on modern electromechanical access control.

Today CISA positions itself as "**CISA Italy**," with **design and engineering made in Italy**, and a product ecosystem that spans both **mechanical and electronic security** for **residential, public, and commercial buildings**.

Ownership / group: CISA is a **strategic brand of Allegion** and has been part of the Allegion group **since 2013** (around the time Allegion became a standalone listed company).

What they're known for (in the real world, on real doors):

- **Mechanical locks and cylinders**, including solutions for master keying systems (CISA talks a lot about cylinders/keys and master-key systems production).
- **Electric / electromechanical locks** (heritage category for them), including locks designed to pair with **panic hardware** or remote electric opening in access-control setups.
- **Exit / panic devices** (their ranges are explicitly positioned around installability and reliability, and they're tracking new EU regulatory changes in their comms).
