Specification Summary

Brand	Cisa
Product type	Shutter Locks

Product Description

The CISA 41320 Central Shutter Lock is a highly reliable security solution designed specifically for roller shutters on commercial, industrial, and residential premises. Installed centrally on the internal face of the shutter curtain, this lock operates two horizontal bolts that extend outwards into both side guides, providing balanced resistance against forced entry and prying.

A standout feature of the CISA 41320 is its double-throw mechanism. The first turn of the key throws the bolts 13mm, and the second turn extends them a further 13mm, achieving a robust 26mm total bolt projection. This deep engagement ensures maximum security for shopfronts, warehouses, and garage doors.

The lock is designed for convenient dual-sided operation and comes supplied with three keys: two keys specifically for operating the lock from the outside, and one key for use from the inside. With its durable build and polished brass cylinder, it is an ideal choice for both new installations and direct retrofitting.

Technical Specifications

- **Case Width:** 155mm
- **Case Height:** 55mm
- **Case Depth:** 15mm

- **Cylinder Projection:** 15mm
- **Cylinder Finish:** Polished Brass
- **Bolt Throw:** 26mm (Double throw - 13mm per throw)
- **Keying:** Keyed to differ
- **Keys Supplied:** 3 (2 for outside operation, 1 for inside operation)
- **Weight:** 560g

Key Features

- **Dual-Side Bolt Extension:** Central mounting design shoots horizontal bolts to both sides for balanced shutter security.
- **Double-Throw Mechanism:** Two-stage throw (13mm per turn) provides a deep 26mm total bolt projection to prevent forced lifting.
- **Convenient Key Operation:** Supplied with 2 keys for external use and 1 key for internal use.
- **Durable Cylinder:** Features a robust cylinder with a polished brass finish.
- **Versatile Application:** Ideal for securing shopfronts, commercial warehouses, and domestic garage shutters.

Brand Profile

Cisa

CISA (Costruzioni Italiane Serrature e Affini) is an iconic **Italian lock and access-control brand**, founded in **1926** by **Luigi Bucci**. It built its reputation early by **patenting the first electrically controlled lock** the same year it was founded—basically kicking the door open (politely, with a latch) on modern electromechanical access control.

Today CISA positions itself as "**CISA Italy**," with **design and engineering made in Italy**, and a product ecosystem that spans both **mechanical and electronic security** for **residential, public, and commercial buildings**.

Ownership / group: CISA is a **strategic brand of Allegion** and has been part of the Allegion group **since 2013** (around the time Allegion became a standalone listed company).

What they're known for (in the real world, on real doors):

- **Mechanical locks and cylinders**, including solutions for master keying systems (CISA talks a lot about cylinders/keys and master-key systems production).
- **Electric / electromechanical locks** (heritage category for them), including locks designed to pair with **panic hardware** or remote electric opening in access-control setups.
- **Exit / panic devices** (their ranges are explicitly positioned around installability and reliability, and they're tracking new EU regulatory changes in their comms).
