Specification Summary

Brand	Cisa
Product type	Furniture Lock

Product Description

The CISA 72010 is a high-quality oval profile lock designed specifically to secure metal filing cabinets and multi-drawer office furniture. Ideal for both commercial offices and home study setups, this robust lock helps protect confidential documents, personal belongings, and valuable assets from unauthorised access.

Featuring a durable 44mm cylinder, the lock is finished in a clean, professional nickel plating that offers excellent resistance against daily wear, rust, and corrosion. It is supplied keyed to differ, ensuring individual security for your cabinet, and comes complete with two keys. With its compact dimensions and straightforward installation, it is a reliable replacement or upgrade for standard metal cabinet locking systems.

Technical Specifications

- **Brand:** Cisa
- **Manufacturer Reference:** 72010 (Part Number: 7590)
- **Profile:** Oval
- **Cylinder Length:** 44mm
- **Width:** 15mm
- **Finish:** Nickel Plated

- **Keying:** Keyed to differ
- **Keys Supplied:** 2
- **Weight:** 100g
- **Packaging:** Bagged
- **Barcode:** 8015345105749

Key Features

- **Secure Storage:** Designed specifically to lock and secure metal filing cabinets and multi-drawers, preventing unauthorised access to sensitive files.
- **Corrosion Resistant:** The durable nickel-plated finish provides a professional look while protecting the lock against rust and daily wear.
- **Individual Security:** Keyed to differ mechanism ensures that each lock operates on its own unique key profile.
- **Ready to Install:** Supplied complete with two keys for immediate convenience and ease of use.

Brand Profile

Cisa

CISA (Costruzioni Italiane Serrature e Affini) is an iconic **Italian lock and access-control brand**, founded in **1926** by **Luigi Bucci**. It built its reputation early by **patenting the first electrically controlled lock** the same year it was founded—basically kicking the door open (politely, with a latch) on modern electromechanical access control.

Today CISA positions itself as "**CISA Italy**," with **design and engineering made in Italy**, and a product ecosystem that spans both **mechanical and electronic security** for **residential, public, and commercial buildings**.

Ownership / group: CISA is a **strategic brand of Allegion** and has been part of the Allegion group **since 2013** (around the time Allegion became a standalone listed company).

What they're known for (in the real world, on real doors):

- **Mechanical locks and cylinders**, including solutions for master keying systems (CISA talks a lot about cylinders/keys and master-key systems production).
- **Electric / electromechanical locks** (heritage category for them), including locks designed to pair with **panic hardware** or remote electric opening in access-control setups.
- **Exit / panic devices** (their ranges are explicitly positioned around installability and reliability, and they're tracking new EU regulatory changes in their comms).
