Is Cylinder

Product Description

The CISA Astral S24 QD Euro Double Cylinder is a high-performance security solution designed for both residential and commercial doors. Offering dual-sided key access, this double cylinder is ideal for main entrance doors requiring secure key control from both the inside and outside.

Engineered with CISA's advanced security technology, the Astral S24 features a 10-pin key bitting system alongside robust anti-drill, anti-pick, and anti-bump protection. To defend against common forced entry methods, it incorporates a unique break line and a laminated segment pack, providing exceptional resistance to lock snapping and pulling even without the support of an armoured handle. The QD (Quick Defence) system further enhances security by helping to prevent unauthorised key duplication.

This cylinder is available in multiple overall sizes (ranging from 35/35 to 40/60) and body lengths (from 70mm to 100mm), with options for both Nickel Plated and Polished Brass finishes. Please select your required size and finish from the options below.

Technical Specifications

- **Cylinder Profile:** Euro
- **Cylinder Type:** Double Euro (key access from both sides)
- **Mechanism:** 10-pin key bitting system
- **Overall Lengths:** 70mm, 90mm, and 100mm available (please select below)
- **Cylinder Sizes:** 35/35, 40/50, and 40/60 available (please select below)
- **Finishes:** Nickel Plated and Polished Brass available (please select below)
- **Keys Supplied:** 3 keys (with fixing screw)
- **Fire Testing:** Grade 0
- **Keying Options:** Keyed to Differ (standard), Keyed Alike (in-house), or Master Keyed (special order)

Key Features

- **Advanced Attack Resistance:** High-performance protection against bumping, picking, and drilling.
- **Snap & Pull Resistance:** Features a unique break line and a laminated segment pack to resist snapping and pulling without needing an armoured handle.
- **Quick Defence (QD) System:** Adds an extra layer of security to help prevent unauthorised key duplication.
- **Dual-Sided Access:** Double cylinder design allows secure key operation from both inside and outside.
- **Precision Engineered:** Built with a high-quality brass body for smooth, reliable operation.

Brand Profile

Cisa

CISA (Costruzioni Italiane Serrature e Affini) is an iconic **Italian lock and access-control brand**, founded in **1926** by **Luigi Bucci**. It built its reputation early by **patenting the first electrically controlled lock** the same year it was founded—basically kicking the door open (politely, with a latch) on modern electromechanical access control.

Today CISA positions itself as "**CISA Italy**," with **design and engineering made in Italy**, and a product ecosystem that spans both **mechanical and electronic security** for **residential, public, and commercial buildings**.

Ownership / group: CISA is a **strategic brand of Allegion** and has been part of the Allegion group **since 2013** (around the time Allegion became a standalone listed company).

What they're known for (in the real world, on real doors):

- **Mechanical locks and cylinders**, including solutions for master keying systems (CISA talks a lot about cylinders/keys and master-key systems production).
- **Electric / electromechanical locks** (heritage category for them), including locks designed to pair with **panic hardware** or remote electric opening in access-control setups.
- **Exit / panic devices** (their ranges are explicitly positioned around installability and reliability, and they're tracking new EU regulatory changes in their comms).
