Is Cylinder

Product Description

The CISA C2000 Euro Key & Turn Cylinder offers a reliable and convenient security solution for both residential and commercial doors. Featuring key access from the outside and a thumbturn on the inside, this cylinder allows for quick locking and swift emergency egress without the need to search for a key.

Constructed with a robust 5-pin mechanism, the C2000 provides over 30,000 key differs and features a hardened steel pin for drill resistance. It also includes an adjustable cam and is supplied complete with three keys and a cylinder retaining screw.

This polished brass cylinder is available in a variety of sizes to suit different door thicknesses, with overall body lengths ranging from 60mm to 90mm, A-side lengths from 30mm to 45mm, and B-side (turn) lengths from 30mm to 50mm. Please select your required dimensions from the options below.

Technical Specifications

- **Cylinder Profile:** Euro
- **Type:** Key & Turn (Thumbturn)
- **Mechanism:** 5-pin system
- **Key Differs:** 30,000
- **Finish:** Polished Brass
- **Standards:** BS EN 1303:2005
- **Fire Rating:** Grade A fire tested
- **Overall Lengths Available:** 60mm to 90mm (please choose from the options below)
- **A-Side Lengths Available:** 30mm to 45mm (please choose from the options below)
- **B-Side (Turn) Lengths Available:** 30mm to 50mm (please choose from the options below)
- **Keys Supplied:** 3 keys (keyed to differ)

Key Features

- **Convenient Operation:** Key entry from the outside with a simple thumbturn on the inside for easy locking and swift egress.
- **Drill Resistant:** Features a hardened steel pin to protect against drilling attacks.
- **Adjustable Cam:** Offers versatile installation options to suit various lock cases.
- **Complete Package:** Supplied with three keys and a cylinder retaining screw.
- **Classic Finish:** High-quality polished brass finish to complement traditional and modern door hardware.

Brand Profile

Cisa

CISA (Costruzioni Italiane Serrature e Affini) is an iconic **Italian lock and access-control brand**, founded in **1926** by **Luigi Bucci**. It built its reputation early by **patenting the first electrically controlled lock** the same year it was founded—basically kicking the door open (politely, with a latch) on modern electromechanical access control.

Today CISA positions itself as "**CISA Italy**," with **design and engineering made in Italy**, and a product ecosystem that spans both **mechanical and electronic security** for **residential, public, and commercial buildings**.

Ownership / group: CISA is a **strategic brand of Allegion** and has been part of the Allegion group **since 2013** (around the time Allegion became a standalone listed company).

What they're known for (in the real world, on real doors):

- **Mechanical locks and cylinders**, including solutions for master keying systems (CISA talks a lot about cylinders/keys and master-key systems production).
- **Electric / electromechanical locks** (heritage category for them), including locks designed to pair with **panic hardware** or remote electric opening in access-control setups.
- **Exit / panic devices** (their ranges are explicitly positioned around installability and reliability, and they're tracking new EU regulatory changes in their comms).
