Specification Summary

Brand	Codelocks
Product type	Codelocks

Product Description

The Codelocks CL4020 is a high-quality, battery-operated electronic digital lock designed for low to medium traffic areas, suitable for both indoor and outdoor applications. This euro profile mortice sash lock features a deadbolt and latchbolt, complete with a double cylinder to control the deadbolt and retract the latchbolt. When the deadbolt is locked, access is denied to standard code users, while the key override remains available for management functions such as security and cleaning.

For added safety, the split follower allows the inside lever handle to retract both the deadbolt and latchbolt, preventing accidental lock-ins. This lock is non-handed and fully reversible, making it suitable for doors hung on

either the left or right.

Depending on your requirements, this lock is available in fire-tested and non-fire-tested versions, with weights ranging from 3.053kg to 3.4kg. Please select your preferred fire rating, manufacturer reference (CL4020 or CL4020L SS FKP), and barcode option from the selections below.

Technical Specifications

- **Brand:** Codelocks
- **Mechanism:** Electronic Digital
- **Backset:** 55mm
- **Case Depth Required:** 85mm
- **Width:** 63mm
- **Power:** 4 x AA batteries
- **Battery Life:** Up to 200,000 operations
- **Code Length:** 4 to 6 digits
- **User Codes:** Up to 80 codes
- **Finish:** Brushed Steel PVD
- **Handing:** Reversible
- **Key Override:** Yes (supplied with 2 keys)
- **Operation Outside:** Lever handle on entry of code or by key
- **Operation Inside:** Lever handle free exit
- **Passage Set:** Yes
- **Weather Resistant:** Yes
- **Fire Tested:** Available in fire-tested (BS EN 1634-1, CE Marked) and non-fire-tested options (please choose below)
- **Manufacturer Reference:** CL4020 / CL4020L SS FKP (please choose below)
- **Weight:** 3.053kg to 3.4kg (please choose below)
- **Guarantee:** 2 Year

Key Features

- **Euro Profile Mortice Sash Lock:** Features a deadbolt and latchbolt with a double cylinder for comprehensive control.
- **Code Lockout Function:** Locking the deadbolt denies access to standard code users for enhanced security.
- **Anti-Lock-In Safety Feature:** Split follower allows the inside lever to retract both the deadbolt and latchbolt.
- **Key Override:** Supplied with 2 keys for management override, cleaning, or emergency access.
- **Weather Resistant Finish:** Hardwearing Brushed Steel PVD finish suitable for internal and external use.
- **Flexible Programming:** Supports up to 80 user codes of 4 to 6 digits, easily programmed via the keypad.

Brand Profile

Codelocks

Codelocks is a UK-headquartered access-control brand specialising in **keyless push-button locks** for **doors, lockers, cabinets and furniture**—the kind of hardware that's built to remove keys from the equation without dragging you into a full-blown wired access-control install. The company was **founded in 1991** and is based in **Newbury, Berkshire**, with a global footprint and multiple regional operations.

Their product family spans:

- **Mechanical digital locks** (purely mechanical keypad locks: no batteries, no wiring)
- **Electronic digital locks** (standalone battery-powered locks aimed at higher functionality and audit/control features)
- **Locker locks** under the **KitLock by Codelocks** name, targeting leisure, workplaces, education, and self-storage style installs

A signature differentiator is **NetCode®**: Codelocks' system for generating **time-sensitive access codes** (think "this code works from 2pm–6pm on Tuesday" rather than "this code works until the heat death of the universe"). NetCodes can be issued through the **Codelocks Connect portal** or related tools, making it popular for short-term access in things like **self-storage, rentals, shared facilities, and managed workplaces**.

On the "serious door" end, their **CL5000** line is positioned as **heavy-duty electronic locks for high-traffic applications** and is marketed with **ANSI Grade 2** testing references - very much the "commercial door that gets slammed 400 times a day" vibe.
