Specification Summary

Brand	Crompton
Product type	Cabinet

Product Description

The Crompton 0160 Solid Drawn Hinge is a high-quality brass hinge designed for cupboards, cabinets, and lightweight doors. Crafted from solid drawn brass, it features countersunk holes for a neat, flush installation and a strong brass pin for smooth, reliable operation.

These hinges are supplied in pairs, making them a convenient choice for cabinet-making and light joinery projects. They are available in multiple sizes and weights to suit different applications. Please select your preferred length, width, and weight from the options below to find the perfect fit for your project.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
