Specification Summary

Brand	Crompton
Product type	Washer

Product Description

The Crompton 0162STD-102-68-30 is a high-quality double steel washered hinge, designed specifically for use on internal doors. Featuring a classic polished brass finish, this medium-duty hinge combines durability with an elegant aesthetic that complements a wide range of traditional and contemporary interior decors.

Constructed with double steel washers, the hinge is engineered to minimise friction and prevent wear over time, ensuring a smooth, quiet, and reliable opening and closing action. The countersunk screw holes allow for a neat, flush-fitting installation, preventing screw heads from protruding and interfering with the door's operation.

Supplied loose as a single unit, this 102mm x 68mm hinge is an ideal choice for residential properties looking for a dependable and cost-effective door hardware solution.

Technical Specifications

- **Brand:** Crompton
- **Manufacturer Reference:** 0162STD 102 68 30
- **Part Number:** L14409

- **Hinge Type:** Double Steel Washered
- **Finish:** Polished Brass
- **Length:** 102mm (10.2cm)
- **Width:** 68mm
- **Weight:** 160g
- **Pack Quantity:** 1
- **Packaging:** Loose
- **Barcode:** 5010621002012

Key Features

- **Double Steel Washers:** Designed to reduce friction and prevent wear, ensuring smooth and quiet door operation.
- **Countersunk Holes:** Allows screws to sit flush with the hinge surface for a clean, professional finish.
- **Ideal for Internal Doors:** Perfect for medium-duty residential interior door applications.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
