Specification Summary

Brand	Crompton
Product type	Hasp & Staple

Product Description

The Crompton 149 Heavy Duty Hasp and Staple (149B) is a robust security solution designed to protect outbuildings, sheds, gates, and external doors. Manufactured from high-quality steel, this heavy-duty hasp and staple features a durable black finish that provides excellent corrosion resistance, making it ideal for outdoor applications.

Engineered for enhanced security, the design incorporates concealed fixings when the hasp is closed, preventing opportunistic thieves from unscrewing or tampering with the installation. To secure your property, simply pair this hasp and staple with a suitable padlock (sold separately). It is compatible with padlocks featuring a shackle diameter of up to 18mm, offering versatile locking options.

Technical Specifications

- **Brand:** Crompton
- **Manufacturer Reference:** 149B
- **Length:** 25.4cm (254mm)
- **Finish:** Black
- **Projection:** 53mm

- **Weight:** 630g

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
