Specification Summary

Brand	Crompton
Product type	Catch & Latch

Product Description

The Crompton 1819 is a reliable, gravity-actuated automatic gate latch (commonly known as a 'D' latch) designed for timber garden gates, side entrances, and domestic pedestrian gates. It features a self-latching mechanism where the pivoting striker bar automatically drops into the catch plate as the gate swings shut, ensuring secure closure without manual intervention.

Manufactured from robust steel with a protective zinc-plated finish, this latch is built to withstand external weather conditions and frequent outdoor use. Its surface-mounted design makes it simple to install on gate posts and frames, and it features pre-drilled countersunk holes for a clean, flush finish.

Technical Specifications

- **Barcode:** 5010621104112
- **Brand:** Crompton
- **Manufacturer Reference:** 1819
- **Part Number:** L1161
- **Finish:** Zinc Plated
- **Height:** 50mm

- **Weight:** 180g
- **Pack Quantity:** 1
- **Packaging:** Loose

Key Features

- **Automatic Latching:** Gravity-fed design automatically drops the pivoting striker bar into the catch plate upon contact for secure closure.
- **Weather Resistant:** Zinc-plated finish provides protection against rust and corrosion in outdoor environments.
- **Easy Installation:** Surface-mounted design with pre-drilled countersunk holes for a secure, flush attachment to timber gates.
- **Durable Construction:** Built from robust steel to withstand frequent daily use on garden and pedestrian gates.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
