Specification Summary

Brand	Crompton
Product type	Steel

Product Description

The Crompton 1838 Light Pattern Steel Hinge is a practical and reliable choice for hanging lighter internal doors in residential and light commercial properties. Manufactured from durable steel, these butt hinges are designed to provide smooth operation and long-lasting performance for lightweight applications.

These hinges are supplied in pairs and are available in a variety of sizes to suit your specific installation needs. With lengths ranging from 38mm to 10.2cm (102mm), and corresponding screw sizes from 5 to 8, you can find the ideal fit for your project. Please choose your required length, weight, and specifications from the options below.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
