Specification Summary

Brand	Crompton
Product type	Padbolt

Product Description

The Crompton 1A Heavy Duty Brenton Padbolt is a robust security solution designed for securing gates, sheds, and outbuildings. Featuring a heavy-duty construction with a strong 16mm diameter shoot bolt, this slide-action bolt provides dependable physical security. It is designed to be locked securely using a padlock (sold separately), making it an ideal choice for outdoor domestic and commercial applications.

With its hot-dipped galvanised finish, this padbolt offers excellent corrosion resistance, ensuring long-lasting performance even in harsh outdoor weather conditions.

This padbolt is available in a range of lengths from 15.2cm up to 30.5cm, with weights ranging from 450g to 810g. Please select your required length, weight, and barcode from the options below to suit your specific installation. Please note that fixings are not included.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
