Specification Summary

Brand	Crompton
Product type	Hasp & Staple

Product Description

The Crompton 617 Hasp & Staple is a reliable, standard-duty security solution designed for everyday domestic and light commercial applications. Ideal for securing garden gates, sheds, outbuildings, and cabinets, this safety hasp and staple provides an extra layer of protection for your belongings.

A key security benefit of the Crompton 617 is its safety design; when the hasp is closed, the fixing screws are completely concealed. This prevents opportunistic attempts to unscrew the hasp to gain entry. Crafted from durable steel, it offers dependable performance and is built to withstand regular use.

This versatile product is available in a variety of sizes, weights, and finishes to suit your specific installation requirements. Please select your preferred length, width, finish, and packaging option from the choices below.

Technical Specifications

- **Brand:** Crompton
- **Lengths Available:** 75mm, 11.4cm, or 15.2cm (please choose from the options below)
- **Widths Available:** 37mm or 47mm (please choose from the options below)

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
