Specification Summary

Brand	Crompton
Product type	Tower

Product Description

The Crompton 66 Garage Chain Bolt is a robust, spring-loaded security bolt designed primarily for use at the top of wooden double garage doors or gates. This hand-operated bolt features a convenient pull chain that retracts the spring-loaded mechanism to release the door. Once released and the door is pushed shut, the bolt automatically springs back into the locked position, ensuring reliable and hassle-free security.

Finished in a classic black coating, this 21.6cm (216mm) chain bolt is both easy to install and simple to operate. It comes complete with a square bolt receiver for the door frame and all necessary fixings, making it a complete, ready-to-install solution for securing your garage or outbuilding.

Technical Specifications

- **Brand:** Crompton
- **Manufacturer Reference:** 66 (Part Number: 388)
- **Length:** 21.6cm (216mm)
- **Finish:** Black
- **Weight:** 570g
- **Pack Quantity:** 1

- **Barcode:** 5010621121416
- **Supplied With:** Square bolt receiver and fixings

Key Features

- **Spring-Loaded Mechanism:** Automatically returns to the locked position when the door is closed for effortless security.
- **Pull Chain Operation:** Easy-to-use chain allows quick and smooth retraction of the bolt from a comfortable height.
- **Versatile Application:** Ideal for securing the top of wooden double garage doors, gates, or outbuildings.
- **Complete Kit:** Supplied with a matching square bolt receiver and all necessary fixing screws for straightforward installation.
- **Durable Finish:** Classic black finish provides a clean look and protection against the elements.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
