Specification Summary

Brand	Crompton
Product type	Tee

Product Description

The Crompton 909 Japaned Tee Hinge is a light-duty tee hinge designed for outdoor and domestic applications. Sold in pairs, these hinges are ideal for securing gates, shed doors, outhouses, and garden furniture. They feature a durable black powder-coated finish (Japaned) that provides excellent protection against weathering and outdoor elements, ensuring long-lasting performance.

These hinges are available in multiple lengths ranging from 15cm to 45cm to suit various door and gate sizes. Depending on the length selected, they accommodate screw sizes 6, 8, or 10, with weights ranging from 140g up to 840g per pair. Please select your preferred length, screw size, and weight from the options below to find the perfect fit for your project.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
