Specification Summary

Brand	Crompton
Product type	Gate

Product Description

The Crompton 950 is a high-quality, light-duty strap hinge designed for use on lightweight gates, shed doors, and other domestic outbuildings. Featuring a robust fixed pin design, this hinge provides smooth operation and allows for a full 180-degree opening angle, ensuring unrestricted access when your gate or door is open.

Constructed with durability in mind, it is finished in sleek satin chrome, offering both a clean, modern look and reliable protection against the elements. These hinges are supplied in convenient packs of two, making them an ideal choice for standard installations.

This hinge is available in multiple lengths, weights, and screw size configurations to suit your specific project requirements. Please choose your preferred size and specifications from the options below.

Brand Profile

Crompton

Crompton is a UK **architectural ironmongery** brand used for the practical, “fit-and-forget” hardware that lives on doors, gates, garages and windows—hinges, bolts, latches, padbolts, hasps & staples, and the assorted steel bits that quietly keep properties together.

Today, Crompton sits within the **ERA brand family** (ERA explicitly lists Crompton as one of its recognised brands), and the Crompton range is marketed through ERA’s trade channels as their dedicated **ironmongery line**.

In ERA’s own wording, the **Crompton range** covers “everything from **gate ironmongery** like **hinges, bolts and latches** to **window and garage door ironmongery**,” and it’s positioned as traditional, broadly compatible hardware suitable for **period and contemporary homes**, conversions, and commercial properties—backed by ERA’s product/quality know-how.
