Specification Summary

Brand	D&D Technologies
Product type	Catch & Latch

Product Description

The D&D Technologies LokkLatch Deluxe 3 is a premium, highly secure gate latch designed for both residential and commercial properties. It offers the ultimate convenience of being operable and lockable from both sides of the gate, completely eliminating the need for padlocks, chains, or unsightly holes cut into your gate.

Constructed from heavy-duty, rust-free polymers and marine-grade stainless steel components, this latch is fully weather-resistant and built to withstand harsh outdoor conditions. It features a dual 6-pin lock mechanism that can be rekeyed by a locksmith to match your existing house doors. The LokkLatch Deluxe 3 is highly adjustable both vertically and horizontally, ensuring a perfect fit and reliable operation over time. It is designed to suit all square gate posts and frames up to 150mm deep, and can be easily installed on left- or right-handed gates.

Technical Specifications

- **Brand:** D&D Technologies
- **Manufacturer Reference:** DD-LLD3LDRB
- **Finish:** Black
- **Mechanism:** 6-Pin cylinder (re-keyable)

- **Keys Supplied:** 2
- **Handing:** Non-handed (reversible)
- **Keying:** Keyed to differ
- **Post Compatibility:** Fits square posts and frames up to 150mm deep
- **Weather Resistant:** Yes
- **Weight:** 625g

Key Features

- **Dual-Sided Access:** Operates and locks securely from both sides of the gate, eliminating the need for padlocks or chains.
- **Corrosion Resistant:** Built from rust-proof, industrial-strength polymers and marine-grade stainless steel components for long-lasting outdoor durability.
- **Fully Adjustable:** Offers vertical and horizontal adjustment to ensure reliable operation and correct alignment.
- **Tamper Resistant:** Features side-fixing screws that are completely inaccessible when the gate is closed.
- **Re-keyable Lock:** Dual 6-pin locks can be re-keyed by a locksmith to match other household entry doors.
- **Easy Installation:** Fits all square gate posts and frames, requiring only one drilled hole through the post.

Brand Profile

D&D Technologies

D&D Technologies is an **Australian gate-hardware specialist** best known for inventing the **MagnaLatch®**—a magnetic, child-safety gate latch that became a global go-to for **pool and perimeter gate safety**. The company was **established in the late 1980s** and built its reputation on solving the annoying real-world problems of gates: rust, sag, binding, and "why is this latch suddenly possessed?"

What they make

D&D's range is essentially "everything that makes a gate behave":

- **MagnaLatch®** magnetic safety latches (including the **MagnaLatch ALERT** variants that combine a latch + alarm concept in one unit)
- **TruClose®** self-closing hinges, built with **engineering polymers + stainless components** to avoid corrosion, staining, and sagging, and designed to be adjustable and installer-friendly
- **LokkLatch®** gate latches/locks and other privacy/security gate hardware aimed at residential and light commercial perimeter security

They're strongly associated with **pool safety compliance** and family safety messaging, but they also explicitly sell **heavy-duty gate hardware** for **commercial, industrial, and automated gates**.

Where they're based / footprint

D&D lists operations in **Frenchs Forest, NSW (Australia)** and a US presence via **D&D Technologies (USA) Inc.** in **Huntington Beach, California**. Notably, their contact emails use the **assaabloy.com** domain, reflecting their current group ownership.

Ownership

As of **2 May 2024**, **ASSA ABLOY** announced it had acquired D&D Technologies, adding it to the ASSA ABLOY Opening Solutions brand portfolio.
