Specification Summary

Brand	D&D Technologies
Product type	Catch & Latch

Product Description

The D&D Deluxe Lokk Latch Gate Lock (Lockable from One Side) is a highly reliable, key-lockable gravity latch designed for general-purpose gates around homes, gardens, and backyards. It offers a secure and stylish alternative to traditional padlocks and latches, combining convenience with robust security.

Constructed from heavy-duty, UV-stabilised polymers and stainless steel components, this latch is 100% rust-proof and highly weather-resistant. It is designed to fit all square gate posts and frames up to 150mm deep, making it incredibly versatile. The latch is fully adjustable both vertically and horizontally, allowing you to easily align it during installation or adjust it later to compensate for gate sag or ground movement.

With its reversible design, it is suitable for both left- and right-handed gates. It operates and locks securely from one side of the gate, providing dependable privacy and security.

Technical Specifications

- **Brand:** D&D Technologies
- **Manufacturer Reference:** DD-LL3A (LLAARB)

- **Finish:** Black
- **Material:** Industrial-strength polymer and stainless steel
- **Post Compatibility:** Fits square posts and gate frames up to 150mm
- **Handing:** Reversible
- **Keying:** Keyed Alike
- **Keys Supplied:** 2
- **Weather Resistance:** Yes (rust-proof and corrosion-resistant)
- **Weight:** 275g
- **Pack Quantity:** 1

Key Features

- **Single-Sided Locking:** Conveniently locks and unlocks from one side of the gate, eliminating the need for a padlock.
- **Fully Adjustable:** Offers vertical and horizontal adjustment to ensure precise alignment and reliable operation over time.
- **Weatherproof Construction:** Made from durable, UV-stabilised polymers and stainless steel components that will not rust, stain, or corrode.
- **Universal Fit:** Suitable for all square gate posts and frames, and adaptable for left- or right-swinging gates.
- **Easy Installation:** Simple to install with side-fixing legs that provide extra fixing strength and easy alignment.

Brand Profile

D&D Technologies

D&D Technologies is an **Australian gate-hardware specialist** best known for inventing the **MagnaLatch®**—a magnetic, child-safety gate latch that became a global go-to for **pool and perimeter gate safety**. The company was **established in the late 1980s** and built its reputation on solving the annoying real-world problems of gates: rust, sag, binding, and "why is this latch suddenly possessed?"

What they make

D&D's range is essentially "everything that makes a gate behave":

- **MagnaLatch®** magnetic safety latches (including the **MagnaLatch ALERT** variants that combine a latch + alarm concept in one unit)
- **TruClose®** self-closing hinges, built with **engineering polymers + stainless components** to avoid corrosion, staining, and sagging, and designed to be adjustable and installer-friendly
- **LokkLatch®** gate latches/locks and other privacy/security gate hardware aimed at residential and light commercial perimeter security

They're strongly associated with **pool safety compliance** and family safety messaging, but they also explicitly sell **heavy-duty gate hardware** for **commercial, industrial, and automated gates**.

Where they're based / footprint

D&D lists operations in **Frenchs Forest, NSW (Australia)** and a US presence via **D&D Technologies (USA) Inc.** in **Huntington Beach, California**. Notably, their contact emails use the **assaabloy.com** domain, reflecting their current group ownership.

Ownership

As of **2 May 2024**, **ASSA ABLOY** announced it had acquired D&D Technologies, adding it to the ASSA ABLOY Opening Solutions brand portfolio.
