Specification Summary

Brand	D&D Technologies
Product type	Catch & Latch

Product Description

The D&D Technologies Lockable Side Pull MagnaLatch is a highly reliable, general-purpose magnetic gate latch designed for use on gates around homes, gardens, and swimming pools (when installed in accordance with local regulations). Combining sleek styling with proven magnetic technology, this latch offers simple and effective security.

Constructed from durable engineering polymers and stainless steel components, the MagnaLatch is completely rust-proof and designed to last. It features a smart design that allows for up to 10mm of vertical and horizontal adjustment, making initial installation straightforward and allowing for easy post-installation fine-tuning to counteract gate sag over time.

For added security and peace of mind, this model is key-lockable, ensuring your gates remain securely shut when required. It is supplied complete with two keys and all necessary fixings, and is suitable for installation on square-posted gates as well as adapting to glass pool gates.

Technical Specifications

- **Brand:** D&D Technologies
- **Manufacturer Reference:** DD-MLSPS2LRB
- **Finish:** Black
- **Keys Supplied:** 2
- **Adjustment:** Up to 10mm vertical and horizontal
- **Weight:** 184g
- **Pack Quantity:** 1
- **Packaging:** Bagged
- **Barcode:** 736494009839

Key Features

- **Magnetic Latching:** Magnetically triggered mechanism for reliable, proven latching
- **Key Lockable:** Features an integrated lock cylinder for added security, supplied with 2 keys
- **Weather Resistant:** Constructed from rust-proof engineering polymers and stainless steel components to withstand the elements
- **Adjustable Design:** Offers up to 10mm of horizontal and vertical adjustment to simplify installation and accommodate gate sag over time
- **Versatile Fitting:** Ideal for square-posted gates and adaptable for glass pool gates
- **Complete Kit:** Supplied with all necessary fixings for a quick and easy installation

Brand Profile

D&D Technologies

D&D Technologies is an **Australian gate-hardware specialist** best known for inventing the **MagnaLatch®**—a magnetic, child-safety gate latch that became a global go-to for **pool and perimeter gate safety**. The company was **established in the late 1980s** and built its reputation on solving the annoying real-world problems of gates: rust, sag, binding, and "why is this latch suddenly possessed?"

What they make

D&D's range is essentially "everything that makes a gate behave":

- **MagnaLatch®** magnetic safety latches (including the **MagnaLatch ALERT** variants that combine a latch + alarm concept in one unit)
- **TruClose®** self-closing hinges, built with **engineering polymers + stainless components** to avoid corrosion, staining, and sagging, and designed to be adjustable and installer-friendly
- **LokkLatch®** gate latches/locks and other privacy/security gate hardware aimed at residential and light commercial perimeter security

They're strongly associated with **pool safety compliance** and family safety messaging, but they also explicitly sell **heavy-duty gate hardware** for **commercial, industrial, and automated gates**.

Where they're based / footprint

D&D lists operations in **Frenchs Forest, NSW (Australia)** and a US presence via **D&D Technologies (USA) Inc.** in **Huntington Beach, California**. Notably, their contact emails use the **assaabloy.com** domain, reflecting their current group ownership.

Ownership

As of **2 May 2024**, **ASSA ABLOY** announced it had acquired D&D Technologies, adding it to the ASSA ABLOY Opening Solutions brand portfolio.
