Specification Summary

Brand	D&D Technologies
Product type	Catch & Latch

Product Description

The D&D Technologies MagnaLatch Series 3 Lockable Top Pull Gate Latch with Electronic Alarm is the ultimate solution for child safety and pool security. Combining a high-security magnetic gate latch with an integrated electronic alarm, this innovative device provides both visual and audible alerts to ensure your gate is never left open or unlatched.

Designed for maximum reliability, the latch uses magnetic technology that always engages and cannot jam. It features a dual-warning system: a flashing LED light for visual confirmation and an audible alarm. Upon opening, a single beep sounds to notify you of entry, which escalates to a full alarm if the gate remains unlatched for more than 15 seconds.

Engineered to withstand the elements, this Series 3 model is 50% stronger than previous versions and has been rigorously tested to 2 million cycles. It is incredibly easy to install on both metal and wooden gates with no wiring or special tools required. The latch also features a 6-pin rekeyable lock for added security, along with vertical and horizontal alignment indicators to simplify installation and adjust for any future gate sag.

Technical Specifications

- **Brand:** D&D Technologies
- **Manufacturer Reference:** DD-ML3ATPLA
- **Finish:** Black
- **Mechanism:** 6-Pin cylinder (rekeyable)
- **Keying:** Keyed to differ (2 keys supplied)
- **Battery Type:** ER14250 1/2AA 3.6V (included)
- **Operating Temperature:** -20°C to 60°C
- **Gate Material Compatibility:** Metal and wooden gates (square posts)
- **Weight:** 710g
- **Testing:** Tested to 2,000,000 cycles

Key Features

- **Integrated Gate Alarm:** Dual electronic warnings feature flashing LED lights and an audible alarm if the gate is left unlatched.
- **Magnetic Latching:** Reliable magnetic mechanism always engages and cannot jam.
- **Smart Alarm Timing:** Emits a single entry beep, turning into a full alarm after 15 seconds if the gate remains open.
- **Enhanced Strength:** Series 3 design is 50% stronger than previous models for ultimate durability.
- **At-a-Glance Status:** Built-in visual indicator clearly shows whether the latch is locked or unlocked.
- **Easy Installation & Adjustment:** Simple to install with no special tools or wiring required; includes vertical and horizontal alignment indicators.
- **Child Safety Approved:** Meets pool barrier codes, making it ideal for swimming pools, childcare centres, and homes.

Brand Profile

D&D Technologies

D&D Technologies is an **Australian gate-hardware specialist** best known for inventing the **MagnaLatch®**—a magnetic, child-safety gate latch that became a global go-to for **pool and perimeter gate safety**. The company was **established in the late 1980s** and built its reputation on solving the annoying real-world problems of gates: rust, sag, binding, and "why is this latch suddenly possessed?"

What they make

D&D's range is essentially "everything that makes a gate behave":

- **MagnaLatch®** magnetic safety latches (including the **MagnaLatch ALERT** variants that combine a latch + alarm concept in one unit)
- **TruClose®** self-closing hinges, built with **engineering polymers + stainless components** to avoid corrosion, staining, and sagging, and designed to be adjustable and installer-friendly
- **LokkLatch®** gate latches/locks and other privacy/security gate hardware aimed at residential and light commercial perimeter security

They're strongly associated with **pool safety compliance** and family safety messaging, but they also explicitly sell **heavy-duty gate hardware** for **commercial, industrial, and automated gates**.

Where they're based / footprint

D&D lists operations in **Frenchs Forest, NSW (Australia)** and a US presence via **D&D Technologies (USA) Inc.** in **Huntington Beach, California**. Notably, their contact emails use the **assaabloy.com** domain, reflecting their current group ownership.

Ownership

As of **2 May 2024**, **ASSA ABLOY** announced it had acquired D&D Technologies, adding it to the ASSA ABLOY Opening Solutions brand portfolio.
