Specification Summary

Brand	D&D Technologies
Product type	Catch & Latch

Product Description

The D&D Side Pull MagnaLatch is a highly reliable, general-purpose magnetic gate latch designed for use on home and garden gates. Constructed from durable engineering polymers and rust-proof stainless steel components, this latch is engineered to withstand the elements and provide long-lasting performance.

Featuring a powerful magnetic trigger, the latch automatically pulls the bolt into the receiver when the gate is pushed closed. It is designed with reversible handing, making it suitable for both left- and right-hinged gates. To help combat the common issue of gate sag or ground movement over time, the latch offers up to 10mm of horizontal and vertical adjustment, allowing for easy installation and precise post-installation fine-tuning.

Please note that this is a non-lockable latch. For safety applications, such as child-resistant gates, it should be paired with spring-loaded hinges or a self-closing device (sold separately).

Technical Specifications

- **Brand:** D&D Technologies
- **Manufacturer Reference:** DD-MLSPS2
- **Barcode:** 736494005213
- **Finish:** Black

- **Material:** Engineering polymer and stainless steel
- **Adjustment:** Up to 10mm (horizontal and vertical)
- **Gate Gap:** Ideal gap of 8mm to 10mm
- **Minimum Post Size:** 25mm (1")
- **Handing:** Reversible (suits left or right-handed gates)
- **Locking:** Non-lockable
- **Weight:** 172g
- **Pack Quantity:** 1 (supplied with fixings)

Key Features

- **Magnetic Latching:** Uses high-strength magnets to pull the bolt securely into the receiver when closed.
- **Weather Resistant:** Constructed from rust-proof engineering polymers and stainless steel components for a long lifespan.
- **Adjustable Design:** Offers up to 10mm of vertical and horizontal adjustment to compensate for gate sag and ground movement.
- **Easy Installation:** Simple to install on wood, metal, or vinyl gates, with fixing screws included.
- **Reversible Handing:** Easily adapts to both left and right-hinged gate configurations.

Brand Profile

D&D Technologies

D&D Technologies is an **Australian gate-hardware specialist** best known for inventing the **MagnaLatch®**—a magnetic, child-safety gate latch that became a global go-to for **pool and perimeter gate safety**. The company was **established in the late 1980s** and built its reputation on solving the annoying real-world problems of gates: rust, sag, binding, and "why is this latch suddenly possessed?"

What they make

D&D's range is essentially "everything that makes a gate behave":

- **MagnaLatch®** magnetic safety latches (including the **MagnaLatch ALERT** variants that combine a latch + alarm concept in one unit)
- **TruClose®** self-closing hinges, built with **engineering polymers + stainless components** to avoid corrosion, staining, and sagging, and designed to be adjustable and installer-friendly
- **LokkLatch®** gate latches/locks and other privacy/security gate hardware aimed at residential and light commercial perimeter security

They're strongly associated with **pool safety compliance** and family safety messaging, but they also explicitly sell **heavy-duty gate hardware** for **commercial, industrial, and automated gates**.

Where they're based / footprint

D&D lists operations in **Frenchs Forest, NSW (Australia)** and a US presence via **D&D Technologies (USA) Inc.** in **Huntington Beach, California**. Notably, their contact emails use the **assaabloy.com** domain, reflecting their current group ownership.

Ownership

As of **2 May 2024**, **ASSA ABLOY** announced it had acquired D&D Technologies, adding it to the ASSA ABLOY Opening Solutions brand portfolio.
