Specification Summary

Brand	Dorline
Product type	Door Furniture

Product Description

The Dorline Fire Rated Door Selector MK2 is a wedge-shaped door coordinator designed to ensure the correct closing sequence on a pair of rebated double doors. By holding the first opening leaf open until the second leaf has fully closed, it ensures the doors shut in the correct order to maintain the integrity of fire and smoke seals.

This selector is suitable for use on fire doors and features a surface-mounted rebate catch to prevent damage to the door frame structure. It is designed to suit doors of any thickness and rebate size, up to a maximum door width of 1220mm.

This product is available in a range of finishes, including Gold Anodised Aluminium, Polished Brass, Satin Anodised Aluminium, and Satin Stainless Steel, with weights ranging from 342g to 354g. Please select your preferred finish, manufacturer reference, and barcode from the options below.
