Specification Summary

Brand	dormakaba
Product type	Miscellaneous

Product Description

The dormakaba (formerly Kaba) 20 K515 Double Cylinder is a high-performance, high-security cylinder lock designed for demanding industrial and commercial applications. Built with a robust 22-pin radial mechanism arranged across four pin tumbler rows, this cylinder offers exceptional resistance to manipulation and physical wear, ensuring long-lasting durability.

Security is further enhanced by a registered special key section. Duplicate keys are strictly factory-controlled and must be ordered directly from dormakaba (UK) Ltd, requiring a written order with authorised signatures. This ensures complete control over key distribution and prevents unauthorised duplication.

This double cylinder features a 22mm round profile, measuring 65mm in total length (32.5mm / 32.5mm split). It is supplied in a satin chrome finish, boxed with a registration card, two keys, and a cylinder retaining screw.

Technical Specifications

- **Brand:** dormakaba
- **Cylinder System:** Kaba 20
- **Cylinder Profile:** 22mm Round Profile
- **Cylinder Type:** Double Cylinder
- **Overall Length:** 65mm
- **A Side / B Side:** 32.5mm / 32.5mm

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
