Brand	dormakaba
Product type	6200 Series

Product Description

The dormakaba Simplex 6200 Series (formerly Kaba) is a fully mechanical digital lock that offers a reliable, battery-free access control solution for light commercial and residential doors. Designed with durability in mind, this weather-resistant lock features vandal-resistant solid metal pushbuttons and a protective clutch mechanism to prevent forced entry damage.

Programming is straightforward and can be completed directly via the 5-button keypad without removing the unit from the door. It supports a single access code of 1 to 5 digits, offering over 1,000 possible combinations. Operation from the outside is controlled by a thumbturn upon entering the correct code, while the inside knobset provides free egress at all times.

This versatile lock is factory-handed left but is easily field-reversible on-site to suit both left and right-handed doors. It is suitable for doors between 35mm and 57mm thick and is supplied with a standard 70mm latch.

The dormakaba 6200 Series is available in multiple finishes, including Black, Gold, and Grey, with corresponding manufacturer references (6204-60, 6204-85, or 6204-86). Please select your preferred finish and option from the choices below.

Technical Specifications

- **Brand:** dormakaba
- **Backset:** 70mm
- **Case Depth Required:** 105mm
- **Door Thickness:** 35mm to 57mm
- **Code Length:** 1 to 5 digits
- **Number of Codes:** 1 (with 1,000+ combinations)
- **Keypad:** 5 solid metal pushbuttons
- **Operation Outside:** Thumbturn on entry of code
- **Operation Inside:** Knobset (free exit)
- **Handing:** Reversible (factory handed left, field reversible)
- **Finishes:** Black, Gold, or Grey (please select from the options below)
- **Manufacturer References:** 6204-60, 6204-85, or 6204-86 (please select from the options below)
- **Guarantee:** 1 Year

Key Features

- **Fully Mechanical Operation:** Eliminates the need for batteries or wiring, reducing maintenance costs.
- **Weather Resistant:** Robust construction suitable for both internal and external installations.
- **On-Door Programming:** Easily change the access code via the keypad without removing the lock from the door.
- **Vandal Resistant:** Features solid metal pushbuttons and a protective clutch mechanism for enhanced durability.
- **Reversible Handing:** Easily reversed on-site to accommodate left or right-handed doors.
- **Free Egress:** Inside knob allows immediate, unrestricted exit at all times.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
