Specification Summary

Brand	dormakaba
Product type	Floor

Product Description

The dormakaba 7411/56 Single Action Door Strap is a heavy-duty bottom strap designed for use with dormakaba BTS series floor springs, including the BTS 75V and BTS 80. It is specifically engineered for flush-closing, single action timber doors.

Constructed from robust drop-forged steel with a corrosion-resistant zinc-plated finish, this door strap features a 36mm offset. Its non-handed design ensures it is fully reversible, making it highly versatile and suitable for both left and right-handed door installations.

Technical Specifications

- **Brand:** dormakaba
- **Manufacturer Reference:** 7411/56
- **Material:** Drop forged steel
- **Finish:** Zinc Plated
- **Offset:** 36mm
- **Handing:** Reversible (Non-handed)
- **Compatibility:** Suitable for dormakaba BTS floor springs (including BTS 75V, BTS 80, BTS 80F, BTS 80EMB, BTS 80FLB)
- **Door Type:** Single action flush timber doors
- **Weight:** 500g
- **Barcode:** 4021226005774

Key Features

- **Durable Construction:** Drop-forged steel build ensures long-lasting performance and reliability.
- **Corrosion Resistant:** Zinc-plated finish protects the strap from wear and environmental damage.
- **Reversible Design:** Non-handed configuration makes it suitable for both left and right-handed doors.
- **Perfect Compatibility:** Engineered to suit dormakaba BTS floor springs.
- **36mm Offset:** Designed with a standard 36mm offset for smooth single action door operation.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
