Specification Summary

Brand	dormakaba
Product type	Floor

Product Description

The **Dormakaba 7411K/56F Single Action Top Centre** is a high-quality, robust hardware component designed for use with Dormakaba BTS concealed floor springs (such as the BTS80) on single-action flush doors. Engineered for durability and ease of installation, this top centre is constructed from zinc-plated steel, providing excellent strength and corrosion resistance.

This non-handed (reversible) top centre features a 36mm offset, making it suitable for a wide range of door configurations. For added convenience during installation, it is equipped with an eccentric pin and bush. This allows for precise, effortless adjustments to be made even after the door has been hung, ensuring smooth operation and perfect alignment.

Technical Specifications

- **Brand:** dormakaba
- **Manufacturer Reference:** 7411K/56F
- **Barcode:** 4021226007105
- **Material:** Zinc-plated steel
- **Finish:** Silver
- **Offset:** 36mm
- **Screw Centres:** 56mm
- **Plate Width:** 20mm
- **Dimensions:** 44mm (H) x 44mm (D)
- **Weight:** 800g
- **Handing:** Reversible (Non-handed)
- **Compatibility:** Suitable for Dormakaba BTS series floor springs (including BTS80) on single-action flush doors
- **Pack Quantity:** 1

Key Features

- **Post-Installation Adjustment:** Features an eccentric pin and bush for easy alignment after the door is hung.
- **Corrosion Resistant:** Robust steel construction with a zinc-plated finish for enhanced durability.
- **Universal Handing:** Reversible, non-handed design simplifies installation.
- **Perfect Alignment:** Designed specifically to ensure smooth single-action door operation when paired with Dormakaba floor springs.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
