Specification Summary

Brand	dormakaba
Product type	Floor

Product Description

The DORMAKABA 7422 Double Action Universal Door Strap is a heavy-duty bottom strap designed for use with dormakaba BTS series concealed floor springs, including the BTS80. This high-quality strap connects the bottom of the door to the floor spring spindle, ensuring stable guidance and smooth double action movement for doors opening in both directions.

Manufactured from robust drop forged steel with a zinc-plated finish, this door strap is built to withstand heavy-duty use in high-traffic environments. It features a non-handed (reversible) design, making it suitable for both left and

right-handed installations. Additionally, it is fully adjustable to accommodate various door frame profiles, providing a versatile solution for steel, aluminium, and metal doors.

Technical Specifications

- **Brand:** dormakaba
- **Manufacturer Reference:** 7422
- **Material:** Drop forged steel
- **Finish:** Zinc Plated
- **Handing:** Reversible (Non-handed)
- **Length:** 230mm
- **Width:** 24mm
- **Weight:** 400g
- **Maximum Door Weight:** 300kg
- **Action:** Double action
- **Compatibility:** Designed for dormakaba BTS series floor springs (such as BTS80)

Key Features

- **Heavy-Duty Build:** Drop forged steel construction with a zinc-plated finish offers superior strength and long-lasting durability.
- **Universal Application:** Non-handed, reversible design simplifies installation on both left and right-handed doors.
- **Adjustable Design:** Easily adjusts to suit a variety of door frame profiles.
- **High Weight Capacity:** Capable of supporting heavy double action doors weighing up to 300kg.
- **Smooth Double Action:** Engineered to facilitate smooth, reliable opening and closing in both directions.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
