Brand	dormakaba
Product type	Accessory

Product Description

The dormakaba (formerly known as Dorma) 8552/3 End Load Floor Pivot is a high-quality bottom pivot set designed for use with the RTS85 concealed transom door closer system. Engineered specifically for end-load door rail configurations, this pivot set is fixed directly to the floor to provide exceptional rotation stability and smooth, reliable door movement.

This universal pivot is highly versatile, accommodating bottom rails with channel depths ranging from 18mm up to 50mm. It features an adjustable height mechanism to ensure precise alignment and a floor clearance of 5mm. The set comes complete with all necessary fixing screws and plugs, making it a convenient, ready-to-install solution for commercial and architectural door applications.

Technical Specifications

- **Brand:** dormakaba
- **Manufacturer Reference:** 8552/3
- **Compatibility:** Suitable for dormakaba RTS85 concealed transom door closers
- **Installation Type:** End-load
- **Bottom Rail Channel Depth:** 18mm to 50mm

- **Floor Clearance:** 5mm
- **Weight:** 244g
- **Pack Quantity:** 1
- **Packaging:** Bagged
- **Barcode:** 4021226015285

Key Features

- **End-Load Design:** Specifically designed for end-load door rail setups, ensuring secure and stable door rotation.
- **Adjustable Height:** Allows for precise vertical adjustment to achieve perfect door alignment.
- **Versatile Fit:** Accommodates a wide range of bottom rail channel depths from 18mm up to 50mm.
- **Complete Set:** Supplied with all necessary fixing screws and wall plugs for a straightforward installation.
- **Direct Floor Mounting:** Floor portion of the pivot fits directly to the floor for maximum stability.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
